

School desk with undershelf h908_71

Single-seater school desk in Ø40 steel with 70x50 cm top. "C" structure with grid undershelf, ideal for primary and middle schools.

The **single-seater school desk model h908_71** is a technical solution designed for high-traffic school classrooms. The distinguishing feature is the **"C" structure** made of robust 40 mm diameter steel tube, which combines superior stability with optimal management of the space below. The open configuration facilitates access to the seat and classroom cleaning operations, solving the typical criticalities of traditional four-legged desks.

The worktop, finished in an ivory tone to favor light refraction without glare, is integrated with a **metal grid undershelf**. This element allows students to organize educational material in a visible and orderly manner, keeping the writing surface free from clutter.

Technical features

- **Total dimensions:** W 70 x D 50 x H 59 cm
- **Supporting structure:** Ø40 mm steel tube with aluminum finish
- **Frame configuration:** "C" design for maximum freedom of movement
- **Worktop:** 70x50 cm surface, scratch-resistant ivory finish
- **Storage compartment:** Electrowelded metal wire grid undershelf
- **Operating height:** 59 cm (standard for primary and lower secondary schools)
- **Feet:** Scratch-resistant and noise-reducing terminals
