

School desk without under-top shelf h908_66

Single school desk with C-shaped steel structure Ø40 and 70x50 cm top. Height 59 cm, without under-top shelf for maximum freedom of movement.

The **single school desk h908_66** represents an advanced furnishing solution for contemporary educational environments. Designed specifically for primary and secondary schools, this table combines **superior structural stability** with an ergonomic design that promotes prolonged student comfort. The distinctive feature is the **"C" structure**, which eliminates the front obstructions typical of four-legged desks, facilitating access to the seat and optimizing internal classroom space.

The choice to omit the under-top shelf responds to precise hygiene and order needs, avoiding the accumulation of dust and unnecessary objects, and simultaneously guaranteeing total freedom of movement for the legs. The work surface is sized to easily accommodate both traditional paper materials and modern digital devices.
