

Scrap hopper h874_17

Tipping hopper for forklift. Capacity: approx. 0.50 m³. Dimensions: W.1010 x D.1420 x H.1070 mm.

Industrial tipping container for forklift, ideal for construction sites and industrial contexts. The article is equipped with a perimeter profile frame and a robust base with specific openings for **the insertion of the forklift forks**. Sliding of the latter is prevented thanks to the presence of specific protections. The hopper can also be **transported by a pallet truck**.

The specific wheel set can be purchased separately as an optional.

Technical features:

- Tilting at any height
- Capacity: approx. 0.50 m³
- Load capacity: 1000 kg
- Color: RAL 2000
- Safety device against accidental falls and tipping
- Transportable with pallet truck

Options

Wheel set: 2 swivel wheels and 2 fixed wheels in polyamide, Ø 180 mm
