Scratch card display for tobacconists h339_71

Countertop scratch card display in transparent plexiglass with 18 compartments and front door on the retailer side. Dimensions: W 73 x D 17 x H 45 cm.

The **scratch card display h339_71** is a professional high-visibility **transparent plexiglass** solution, specifically designed for the organization and sale of tickets in tobacconists and betting shops. Thanks to its modular 18-compartment structure, this support solves the problem of order at the point of sale, allowing a clear classification of tickets by price or type. The design is studied for maximum security and operational practicality: it is equipped with a **front door positioned on the retailer side**, which facilitates loading and rapid ticket withdrawal while protecting the goods from the customer side. The transparency of the material ensures that every series is perfectly visible, encouraging impulse purchases directly at the sales counter.
