

Secondary school chair h908_28

School chair for secondary schools in Ø28 mm steel and beech plywood, size 6, height 46 cm, characterized by a C-shaped sled structure.

This **secondary school chair** is designed to guarantee resistance and ergonomic support in high-traffic educational contexts. The load-bearing structure stands out for its cantilever design with a **sled base**, a solution that facilitates stability and movement within the classroom. The use of **beech plywood** for the seat and backrest ensures adequate structural flexibility and high mechanical durability.

Technical features

- **Structure:** steel tube with Ø28 mm diameter shaped in a "C" form
- **Base:** sled model for optimal load distribution
- **Seat and backrest material:** natural beech plywood
- **Size:** 6 (standard for secondary schools)
- **Seat height:** 46 cm
- **Seat surface dimensions:** W. 40 x D. 40 cm
