

Secondary school chair with swivel tablet h979_50

Secondary school chair h979_50 with 360° swivel tablet in Compacmel. Ergonomic model on wheels with lower storage grid, Graphite RAL 7021 structure and seat height 460 mm (T6).

The **secondary school chair with swivel tablet h979_50** is a high-performance mobile and multifunctional school seat, developed specifically for **school managers, educational institution employers, interior designers, teachers and company safety managers in the school environment**. This complement responds to the organizational need to set up 3.0 classrooms, collaborative classrooms and dynamic teaching spaces, resolving the problem operative of **rapidly configuring the room layout for frontal lessons or group work, ensuring an integrated writing surface suitable for both right-handed and left-handed students and offering a lower space for backpack storage**. The chair rests on a 4-wheel polyamide base and is equipped with an ergonomic monoblock polypropylene shell with 25 mm perimeter reinforcement and anti-trauma rounded profiles. The welded steel frame, finished in Graphite RAL 7021 color, integrates a robust lower storage grid. The strong point is the tablet in special 13 mm Compacmel material in white finish, capable of rotating 360° for maximum flexibility of use. Developed for continuous intensive use, the unit is supplied ready to use with components compliant with the strictest international quality and environmental management certificates.

Technical features

- **Product type:** mobile secondary school chair with integrated tablet and grid
- **Reference code:** h979_50
- **Dimensional size (Measure):** T6 (seat height 460 mm)
- **Total overall height:** 800 mm
- **Front width:** 487 mm
- **Support base width:** 507 mm
- **Total overall depth:** 771 mm
- **Seat height from the ground:** 460 mm
- **Tablet height from the ground:** 687 mm
- **Useful height of the lower grid:** 237 mm
- **Net structural mass (Weight):** 11.4 kg
- **Seat material (Shell):** monoblock polypropylene with 25 mm reinforcement along the entire perimeter
- **Shell finishes and safety:** ergonomic design, wide seat, rounded profiles without sharp edges, washable; available in various colors of choice
- **Writing tablet specifications:** 360° swivel tablet with dimensions 500 x 300 mm, thickness 13 mm
