

Secondary school desk for students h908_79

Single-seater steel school desk with scratch-resistant top 70x50x76 cm. C-shaped structure and sheet metal under-shelf for high schools and universities.

The **H908_79** single-seater school desk is designed to meet the needs of high-traffic classrooms, such as secondary schools and university campuses. The particular **"C" structure** in steel not only gives solidity to the entire piece of furniture but also guarantees wide freedom of movement for the legs, promoting correct posture during prolonged study sessions. The worktop with an ivory-colored **scratch-resistant** finish is designed to resist daily wear and maintain its aesthetic properties over time.

Technical features
