

Secondary school desk with wire undershelf h848_44

Secondary school desk h848_44 (70x50x71h cm) size 5. Melamine top 20 mm thick, wire undershelf, footrest and Ø 28 mm tubular frame.

The **Secondary school desk with wire undershelf h848_44** is a single-seater rectangular table designed for the setup of individual study stations in secondary school and educational environments. This furniture responds to the operational need to combine a stable work surface with an orderly management of teaching materials, avoiding clutter on the top thanks to the integrated undershelf and promoting correct posture with the help of the footrest. Aimed at secondary schools, educational institutes, and training centers that require functional solutions for students, the table is identified by school size 5, develops dimensions of 70 x 50 cm with a height from the ground of 71 cm and has a net weight of 11.75 kg. The load-bearing structure is made of tubular steel with a diameter of 28 mm, available in Light Grey and Metallic color variants. The worktop consists of an Ivory-colored melamine panel with a thickness of 20 mm, completed by a practical wire undershelf and an integrated footrest.
