

## Security Locker for Smartphone h283\_80

Security locker in 6/10 mm profiled steel with 20 compartments for smartphones. Single or padlockable locks, anti-burglary hinges, accident-prevention base. Dimensions 60x35x175 cm, gray RAL 7035.

The **Security Locker for smartphone 283\_80** is a dedicated and protected space for the mobile devices of students and staff, responding to safety and control needs in school contexts and educational structures. The structure in **first-choice profiled steel with a thickness of 6/10 mm** ensures robustness and resistance even in environments with frequent use, while the single-block electro-welded construction guarantees stability without sacrificing space optimization.

Equipped with **20 individual compartments** with an entry of **15 x 11.8 cm**, it allows for the storage of smartphones and small personal electronic devices. Each compartment can be individually locked via a **cylinder lock with a double key** or an **anti-tamper padlockable handle**, ensuring protection even in high-risk contexts.

The **internal anti-burglary hinges with a hidden rotation pin** prevent forced access, while the **6 mm radius anti-shock perimeter edge** prevents damage from accidental impacts. The **accident-prevention polypropylene base** protects against blows to the base during intensive daily use.

The **optional simultaneous opening system** allows authorized personnel to inspect all compartments at the same time, with the possibility of deactivation upon request for personalized management. The **slots on the roof ensure optimal ventilation**, avoiding the overheating of stored devices.

The surface is treated with **iron phosphate and corrosion-resistant acrylic painting**, compliant with UNI standards to resist wear and chemical agents. The **100% Italian production** certifies the quality of the product.

## Technical characteristics

- **Structure:** profiled steel, 6/10 mm thickness, single-block electro-welded
- **Compartments:** 20 individual, useful entry size 15 x 11.8 cm
- **Overall dimensions:** W 60 x D 35 x H 175 cm
- **Locks:** cylinder with double key or anti-tamper padlockable handle
- **Hinges:** internal anti-burglary with invisible internal rotation pin
- **Perimeter edge:** anti-shock with 6 mm radius
- **Base:** accident-prevention polypropylene
- **Ventilation:** slots on the roof for air circulation
- **Color:** gray RAL 7035 (body and doors)
- **Surface treatment:** iron phosphate, cross-linked acrylic painting, resistant to corrosion and chemical agents
- **Opening:** simultaneous (optional, can be deactivated on request) or single
- **Certifications:** UNI EN 16121, UNI EN 16122, UNI 12720, UNI 15187, UNI 9227, C.A.M. (Minimum Environmental Criteria)
- **Production origin:** 100% Italy
