

## Seesaw for playground h350\_130

**Seesaw with 2 seats. In aluminum and electro-galvanized steel.**

The **playground seesaw** is made of EN AW 6060 alloy aluminum and electro-galvanized steel. The seesaw consists of an **oscillating beam** in EN AW 6060 alloy aluminum section 90x90 mm, equipped with n° **2 seats in HPL** high-pressure laminate in bright colors, 15 mm thick. Shaped panels in bright colored HPL laminate, 8 mm thick, supporting the standard-compliant handles in colored nylon. The pivot oscillation mechanism with teflon bearings consists of a **central frame in galvanized steel** with uprights section Ø 89 mm and shaped arms section Ø 60 mm. Equipped with **n° 2 shock-absorbing devices in reinforced rubber** positioned at the ends of the beam. Assembly using 8.8 galvanized steel bolts and self-locking nuts. Standard-compliant nut covers in colored nylon. Polyethylene post caps. Powder coating at 180°C with high resistance to weathering and UV radiation. **Ground anchoring attachments.**

### Technical Features:

- Material: aluminum alloy and galvanized steel
- n° 2 seats
- Maximum dimensions: 45 x 308 x 93 cm
- Certified in accordance with European Standards EN 1176 by the German TÜV-SÜD Institute.
