

Seesaw for playground h350_331

Seesaw with **2 seats**. Electro-galvanized and painted steel structure.

Seesaw ideal for public gardens. The seesaw is made of electro-galvanized and painted steel. It features an **oscillating beam** in round tube Ø 60 mm, **n° 2 handrails** in round tube Ø 35 mm, **n° 2 seats in PEHD polyethylene**, pantographed and without sharp edges, thickness 15 mm, and **n° 2 shock-absorbing devices** in fabric-reinforced rubber positioned at the end of the beam. The fulcrum oscillation mechanism with Teflon bearings consists of a central frame in galvanized and painted steel with section Ø 60 mm. **Assembly** using **8.8 galvanized steel bolts** and self-locking nuts. Compliant nut caps in colored nylon. Polyethylene post caps. Oven-baked at 180°C in polyester powder with very high resistance to atmospheric agents and UV radiation. Attachments for **ground anchoring**.

Technical Features:

- Dimensions: L. 247 x D. 63 x H. 80 cm
- Age of use: 3-6 years
- For 2 persons
- Impact area: 13.50 m²
- Fall height: 90 cm
- Assembly time: 1 h
- Ground anchoring
- Minimum space: 450 x 300 cm
- EN 1176 Certified

INFORMATION

- **places** 2
- **Material** metal
