

Seesaw swing for playground h350_332

Seesaw swing for outdoor spaces. Number of users: 4. Dimensions: L. 247 x D. 75 x h. 86 cm.

Seesaw swing for children aged 3 to 8 years, ideal for furnishing playgrounds and public gardens. The structure is made of electro-galvanized and painted steel. It features an oscillating beam and **4 handrail handles**, **n°4 seats** in HDPE polyethylene without sharp edges to ensure maximum safety. **Two shock-absorbing devices** in fabric-reinforced rubber positioned at the ends of the beam. The fulcrum oscillation mechanism with Teflon bearings consists of a central frame in galvanized and painted steel. Assembly is carried out using galvanized steel bolts and self-locking nuts. Resistant to atmospheric agents and UV radiation. Ideal for **ground anchoring**.

Technical Features:

- Dimensions: L. 247 x D. 75 x h. 86 cm
- Age of use: 3-8 years
- For 4 children
- Impact area: 13.50 m²
- Fall height: 90 cm
- Assembly time: 1 h
- Fixing: ground level
- Minimum space: 450 x 300 cm
- **EN 1176 Certified**

INFORMATION

- **places 4**
- **Material metal**
