

Semicircular bench for public spaces h287_215

Semicircular urban furniture bench in galvanized steel (220x159 cm). Resistant tubular structure certified for parks and public spaces.

Bench for public spaces characterized by a **semicircular geometry**, designed to optimize the use of space and enhance the aesthetics of urban areas, parks and gardens. The structure combines solidity and comfort, using **galvanized flat iron** profiles and steel tubes that guarantee high mechanical resistance. The curved design makes it ideal for bordering flower beds, surrounding trees or creating dynamic resting areas in pedestrian contexts.

Technical features

- **Structure material:** galvanized flat iron profiles with 50x8 mm section.
- **Seat and backrest:** Ø 30 mm galvanized steel round tube.
