

Service cabinet for restaurants 1 door h2282

Space-saving service cabinet for restaurant dining rooms in melamine wood (48x48x145h cm). Column configuration with closed cutlery drawer, door with adjustable shelf and 2-shelf riser. On wheels.

The **restaurant dining room service cabinet** is a professional furnishing solution designed to maximize operational efficiency in limited spaces. Made with a sturdy **melamine wood structure**, this column model allows for the rational organization of everything needed for table service. The configuration includes an **upper riser with 2 shelves** for glasses and condiments, a **closed drawer** on runners with an internal separator to protect cutlery from dust, and a lower compartment with a **door** equipped with an adjustable shelf, ideal for storing clean plates and linens. Thanks to the swivel wheels, the cabinet ensures fluid mobility, facilitating the dynamic management of space in the room.
