

Service clearing trolley h314_159

Service clearing trolley in 18/10 stainless steel, 1160x560 mm with tiered rim shelves and swivel castors for professional catering.

The service trolley **h314_159** is a professional solution designed specifically for clearing and handling operations within HoReCa contexts. The structure, entirely made of **18/10 stainless steel** with a 20x20 mm square tube, guarantees maximum corrosion resistance and a long operational life even in high-humidity environments such as professional kitchens.

The two-shelf configuration is optimized for load safety: the upper shelf features a **200 mm** rim, ideal for holding dishes or unstable containers, while the lower shelf has a height of 60 mm to facilitate the loading of bulkier items. Mobility is entrusted to four large-diameter swivel castors with integrated bumpers.

Technical specifications

- **Material:** 18/10 Stainless steel with 20x20 mm square tube structure
- **Configuration:** Upper shelf height 200 mm, lower shelf height 60 mm
- **Handling system:** 4 swivel castors Ø 125 mm
- **Protection:** Corner bumpers in anti-scratch rubber
- **Overall dimensions:** 1160 x 560 x h.900 mm
- **Load capacity:** Nominal capacity approx. 80 kg
