

Service food trolley with 2 shelves h83309

Professional service trolley in aluminum and reinforced plastic, 103x50.5 cm. 2 shelves, 100 kg capacity, ideal for catering and hotels.

The **h83309 service food trolley** is a professional solution designed to optimize internal logistics in the **HoReCa** sector. Thanks to the combination of an **aluminum** supporting structure and **reinforced plastic** shelves, the trolley guarantees high mechanical resistance combined with superior maneuverability, facilitating the transport of dishes, trays, and equipment in restaurant rooms, canteens, and hotel departments.

The 2-shelf configuration with a **useful distance of 60.5 cm** is specifically designed to accommodate bulky loads, while the **raised edges** ensure that the contents remain in place during movement, reducing the risk of accidental breakage. Operational stability is supported by legs with a diameter of 4.6 cm and a system of swivel wheels that allow smooth rotations even at full load.

Technical features

- **Structure:** 4.6 cm diameter aluminum tubes
- **Shelves:** 2 in reinforced polypropylene with anti-fall edges
- **Capacity per shelf:** 50 kg (distributed static load)
- **Total capacity:** 100 kg
- **External dimensions:** L 103 x D 50.5 x H 96 cm
- **Clearance between shelves:** 60.5 cm
- **Movement system:** 4 swivel wheels, 2 of which are equipped with parking brakes
- **Net weight:** 10 kg
- **Assembly:** Quick mounting kit (approx. 10 minutes)
