

Service trolley 2 pressed shelves h314_152

18/10 stainless steel service trolley, 2 soundproofed shelves 1000x500 mm. Hygienic and silent solution for HoReCa, healthcare and industry.

The **h314_152** service trolley represents an excellent professional solution for internal handling in environments requiring strict hygienic standards and maximum operational efficiency. Made entirely of **18/10 stainless steel** with a satin finish, this tool guarantees high resistance to corrosion and the frequent sanitization cycles required in the hospital, chemical, and collective catering sectors.

The design focuses on acoustic well-being and safety: the shelves include an underlying **soundproofing system** to reduce vibrations, while the pressed and rounded edges eliminate areas where dirt can accumulate, simplifying HACCP procedures. The load-bearing structure in round tube ensures structural stability even under full load conditions.

Technical features

- **Material:** finely satin-finished 18/10 stainless steel
- **Structure:** round tube frame with 25 mm diameter
- **Shelf configuration:** 2 pressed tray surfaces with rounded edges
- **Usable shelf dimensions:** 1000 x 500 mm
- **Overall dimensions:** 1100 x 580 x h 900 mm
- **Sliding system:** 4 swivel non-marking grey rubber wheels (125 mm diameter)
- **Safety:** rubber corner bumpers for the protection of walls and furniture
- **Load capacity:** usable capacity of approximately 80 kg distributed
