

Service trolley 3 shelves h215_224

Professional stainless steel service trolley with 3 shelves, 860x510x940 mm, ideal for the efficient transport of food in the HoReCa sector.

The **h215_224 service trolley** represents a fundamental logistical accessory for the optimization of operations in the kitchen and dining room. Designed to facilitate the transport of food, dishes and drinks, this tool meets the efficiency needs typical of catering and hotel contexts. The structure is entirely made of **stainless steel**, a choice of material that guarantees not only remarkable mechanical resistance and stability, but also prolonged durability in high humidity environments or those subject to frequent cleaning cycles.

Technical features
