

Service trolley 5 shelves h09_268

Service trolley in AISI 304 stainless steel with 5 soundproofed shelves. Dimensions 110x60x160 cm, load capacity 150 kg, ideal for heavy-duty transport.

The **h09_268** service trolley is a professional solution designed for intensive handling and heavy-duty transport in environments requiring high hygienic and structural standards. Built entirely of **AISI 304 stainless steel**, the trolley features a 25 mm round tubular load-bearing structure that guarantees stability even when fully loaded. The 5 shelves, pressed in tray form with anti-cut rounded edges, are soundproofed to reduce noise pollution during movement in wards or dining rooms.
