

Service trolley for clearing h09_215

AISI 304 stainless steel service trolley with 2 shelves and waste bag hole. Dimensions 110x60x94 cm, ideal for quick clearing in the dining room.

The **h09_215** service trolley is a professional solution designed to optimize clearing and tidying operations within restaurant dining rooms, canteens, and HoReCa contexts. The structure, made entirely of **AISI 304 stainless steel**, ensures the highest standards of hygiene and long-lasting resistance to corrosion and daily mechanical stress. The design is studied to maximize staff efficiency: the lower shelf is indeed equipped with a specific **hole for inserting the waste bag**, allowing the management of dishes transport and waste collection simultaneously in a single smooth passage.

Technical features

- Overall dimensions: L110 x W60 x H94 cm
- Useful shelf dimensions: 100 x 50 cm
- Construction material: AISI 304 stainless steel
- Maximum load capacity: 100 kg
- Configuration: 2 reinforced shelves
- Collection system: integrated hole for waste bag (bag not included)
- Movement: 4 multi-directional swivel wheels ø 125 mm
- Safety: rubber bumpers on each wheel and 2 ergonomic push handles
- Net weight: 15 kg
