

Service trolley for clearing h09_261

Clearing trolley in AISI 304 stainless steel, 101x57x97 cm. Tubular structure, tray shelf and multidirectional wheels for professional catering.

This **professional service trolley** is designed specifically for clearing and handling operations in intensive gastronomic contexts. Entirely made of **AISI 304 stainless steel**, it guarantees the highest standards of hygiene and corrosion resistance, making it ideal for industrial kitchens, canteens and food laboratories. The 20x20 mm tubular load-bearing structure ensures structural stability even at full load, while the two-level configuration optimizes the transport of dishes and equipment.
