

Service trolley for dish transport h215145

Professional plastic and metal service trolley with 3 shelves of 700x430 mm. Maneuverable and robust, ideal for dish management.

The **h215145** service trolley is a professional solution designed to optimize the collection and transport of dishes, plates, and glasses within HoReCa contexts. Thanks to the combination of **plastic and lightweight metal**, the structure offers an excellent balance between mechanical strength and maneuverability, facilitating the work of staff in restaurant dining rooms, hotels, and accommodation facilities.

The three large shelves allow for a rational distribution of the load, while the **ergonomic push handles** ensure a secure grip. The movement system rests on four swivel wheels designed to guarantee smooth movement even under full load.
