

Service trolley for restaurant dining room h22_194

Service trolley in AISI 304 stainless steel, 98x51x91 cm, with 2 removable anti-fall tray shelves. Ideal for professional catering and hotels.

The **dining room service trolley h22_194** is a professional tool designed to optimize workflows in HoReCa and collective catering contexts. The load-bearing structure, made of **AISI 304 stainless steel square tube**, ensures superior resistance to corrosion and structural stability ideal for intensive daily use. The distinctive element is represented by the **tray-shaped shelves**: the 6.5 cm depth acts as a protective barrier, preventing the accidental fall of dishes, liquids, or equipment during transit between the kitchen and the dining room.

Technical features

- **Total dimensions:** W98 x D51 x H91 cm
