

Service trolley for restaurants h83319

h83319 service trolley in stainless steel with 5 removable containers. Dimensions 45x85x90 cm, ideal for tidying and clearing in the HoReCa sector.

The **h83319** service trolley is professional equipment designed to optimize clearing and tidying operations in high-traffic contexts such as **restaurants, canteens and self-service areas**. Entirely made of **stainless steel**, this support meets the hygiene and mechanical resistance requirements typical of the HoReCa sector, reducing staff fatigue and speeding up the transport of dirty dishes to washing areas.

The structure is characterized by **welded and polished joints** and support beams with double welds, a configuration that ensures superior stability even when fully loaded. The movement system rests on **four swivel wheels**, two of which are equipped with parking brakes, to guarantee maneuverability and operational safety in crowded environments.
