

Service trolley h220_400

Professional aluminum and plastic service trolley, 3 shelves, three-sided enclosure for discrete clearing and 120 kg load capacity.

The **h220_400** service trolley is an indispensable tool for logistics management within accommodation facilities, restaurants, and canteens. Its distinguishing feature is the **three-sided paneling**, specifically designed to hide dirty dishes, residues, or waste from guests' sight, maintaining a neat and professional aesthetic in dining areas. The **aluminum and plastic** hybrid structure ensures a low operating weight without compromising the mechanical stability required for transporting significant loads.

Technical features

- **Materials:** Aluminum supporting structure with high-density plastic shelves
- **Configuration:** 3 shelves with optimized support surface
- **Movement system:** 4 swivel wheels, 2 of which are equipped with parking brakes
- **Total dimensions:** W 100 x D 49.5 x H 92 cm
- **Load capacity:** Maximum overall capacity of 120 kg
- **Weight:** 15.4 kg for easy maneuverability
- **Color:** Integral black finish
- **Shelf usable width:** 785 mm
- **Ergonomics:** Push handle integrated into the frame
