

Service trolley h809_52

Multifunctional service trolley h809_52 in ABS and aluminum, 76x53x90 cm, 2 glossy white levels and quick assembly without the aid of tools.

The **multifunctional service trolley h809_52** is an advanced technical solution for internal handling in professional contexts such as HoReCa facilities, offices, and collective catering environments. Characterized by a **two-level** design, the device is designed to optimize the transport of tableware, hotel supplies, or office equipment, while ensuring a modern aesthetic and durable performance.

The load-bearing structure in **extruded aluminum** ensures torsional rigidity and lightness, while the shelves made of **high-resistance ABS** with double-injection molding offer a glossy white surface repellent to moisture and organic residues. This material combination prevents corrosion and facilitates daily sanitization protocols, making it suitable for use in high-intensity operational areas.

Technical specifications

- **Product code:** h809_52
- **Materials:** Aluminum structure and ABS shelves
- **Configuration:** 2 levels with glossy white finish
- **Total dimensions:** L 76 x D 53 x H 90 cm
- **Gliding system:** 4 swivel wheels Ø 100 mm, 2 of which are equipped with pedal brakes
- **Assembly:** Quick interlocking system without the need for tools
- **Chemical resistance:** Resistant to moisture and professional detergents
