

Service trolley length 111 cm h09_256

Multipurpose service trolley in AISI 304 stainless steel with 2 soundproofed shelves. Dimensions 111x57x96 cm, ideal for catering and the medical field.

The **h09_256** service trolley is a professional solution designed for handling loads in environments requiring high hygiene standards and structural resistance. Entirely made with a 20x20 mm **AISI 304 stainless steel tubular** structure, this trolley guarantees stability and longevity even in conditions of intensive use. The two integrated shelves are equipped with a special **soundproofing** treatment that drastically reduces vibrations and noise during transport, making it ideal for sensitive contexts such as hospital wards or elegant dining rooms.

Technical features
