

Service trolley with 2 shelves h492_01

Service trolley in stainless steel bridge structure with 2 shelves (800x500 mm). Welded structure for heavy loads, 125 mm wheels and 120 kg capacity.

Designed for professional handling in HoReCa, healthcare and industrial contexts, the **h492_01** service trolley stands out for its extremely robust “bridge” configuration. The **continuous welded tubular** structure eliminates structural flexing typical of assembled models, ensuring stability even under maximum operating load.

The two support surfaces are made using deep-drawing techniques and feature **raised edges along the entire perimeter**, a fundamental technical solution to prevent accidental liquid spills or sliding of dishes and equipment during transit.

Technical features

- **Material:** High-resistance stainless steel
- **Configuration:** 2 deep-drawn shelves with perimeter edges
- **Handling system:** 4 swivel wheels Ø 125 mm, 2 of which are equipped with pedal brakes
- **Load capacity:** 60 kg per single shelf (Total capacity 120 kg)
- **Clearance between shelves:** 591 mm (useful vertical distance)
- **Positioning:** Upper shelf height at 919 mm from the ground
- **Useful shelf dimensions:** 800 x 500 mm
- **Overall dimensions:** 895 x 595 x h 1015 mm
