

Service trolley with 4 tray shelves h314_154

18/10 stainless steel service trolley with 4 pressed tray shelves, 1100x580x900 mm. Soundproofed and hygienic structure for professional use.

The service trolley **h314_154** is a professional solution designed for intensive handling in environments requiring high hygienic and operational standards. Made entirely of **18/10 stainless steel**, it stands out for the robustness of its 25 mm round tube structure and the construction quality of its components, ideal for the HoReCa, healthcare, and industrial sectors.

The 4 pressed shelves are configured in a tray shape with perfectly rounded edges, a feature that facilitates cleaning operations and prevents the accumulation of residues. The finely satin-finished surface and the integrated soundproofing system under each shelf drastically reduce noise pollution during transport, making it suitable for use in dining rooms, hospital wards, or offices.
