

Service trolley with clearing hole h09_214

h09_214 service trolley in AISI 304 stainless steel for table clearing with integrated waste hole. Dimensions 90x60x94 cm, load capacity 100 kg.

The **h09_214 service trolley** is a professional solution specifically designed to optimize table clearing operations in restaurant and hotel contexts. Made entirely of **AISI 304 stainless steel**, it guarantees the highest standards of hygiene and resistance to corrosion, making it suitable for intensive use in professional environments. The distinctive element is represented by the **integrated hole in the top shelf**, which allows for the immediate disposal of residues and waste into the bag below, speeding up the restoration of the rooms. Movement is made fluid and safe by four multi-directional wheels and double ergonomic handles.
