

Service trolley with shelves for clearing h09_263

Professional AISI 304 stainless steel service trolley with 2 tray shelves (90x50 cm) and multidirectional wheels for intensive clearing.

The **h09_263 service trolley** is a professional piece of equipment specifically designed to optimize clearing and transport operations in catering environments, canteens, and food laboratories. Made entirely of **AISI 304 stainless steel**, the trolley guarantees excellent corrosion resistance and superior durability even under conditions of intensive use and frequent sanitization. The square-section tubular supporting structure (20x20 mm) provides the necessary rigidity to support heavy loads without bending, while the two deep tray shelves ensure the containment of liquids and residues, preventing accidental spills during transit.

Technical features

- Material: high-resistance **AISI 304 stainless steel**
- Structure: 20x20 mm reinforced tubular
- Configuration: **2 tray shelves** with a 65 mm containment height
- Movement system: 4 multidirectional wheels with a diameter of 125 mm
- Useful shelf dimensions: 90x50 cm
- Overall dimensions: 91x57 x h. 97 cm
