

Service trolley with shelves h464_420

Professional 3-shelf polypropylene service trolley. Dimensions: W 105.4 x D 60.3 x H 94.3 cm. Capacity: 272 kg, ergonomic design and heat-resistant anti-impact shelves.

The **service trolley with shelves h464_420** represents a multifunctional mobile solution designed to excel in every **catering activity**, from the dining room to the kitchen. Made of **rotationally molded polypropylene**, this tool solves the problem of vulnerability in traditional trolleys, ensuring a structure that does not dent, chip, or tear even under operational stress. The target audience includes hotels, restaurants, catering, and canteens that need to transport heavy loads such as **coffee dispensers, food containers, or hot meals**. Thanks to the recessed ergonomic handles and modern design, the trolley improves the workflow of operators, offering a refined aesthetic suitable for customer view.
