

Set of 3 fruit baskets for nursery school h821_17

Set of 3 baskets with 40 fruits and vegetables for nursery school. Made in Italy, 100% recyclable. Color classification game for ages 24 months and up.

The **set of 3 baskets with fruit and vegetables h821_17** is a structured educational aid to support logico-mathematical learning in **nursery schools** and kindergartens. Consisting of 40 assorted pieces with sizes varying between 4.5 cm and 18 cm, this kit addresses the need for specific materials for **classification and sorting by color** activities. Through interaction with the baskets and food, children develop chromatic recognition and build a basic vocabulary related to nutrition and shapes. Made entirely in **Italy**, the product meets high sustainability standards: it is **100% recyclable**, produced with 50% recycled plastic and made exclusively through the use of **renewable energy**, guaranteeing a safe and responsible play environment for young users from **2 years** and up.
