

Set of 3 wheels and 1 Turtle Gym for nursery school h821_21

Made in Italy psychomotor set with 3 wheels (Ø40/60/76 cm) and 1 Turtle Gym (Ø40 cm). In 100% recyclable plastic, ideal for balance and paths from 24 months.

The **set of 3 wheels and 1 Turtle Gym for nursery schools** is a complete educational and psychomotor aid, designed to stimulate the development of children's physical and coordination skills starting from **24 months**. Composed of three wheels of different sizes and a dynamic dome, this system allows for the configuration of **variable paths** that challenge balance and spatial perception. The Turtle Gym, the central element of the set, lends itself to versatile use: it can be integrated into circuits or used individually to practice **dynamic seating** and postural stability. Made of **sturdy and 100% recyclable plastic** through processes powered by renewable energy, the set meets the safety and sustainability needs of modern educational facilities, making it suitable for both indoor use and outdoor activities.
