

Set of 4 roller cars with wheels and 4 connectors for nurseries h821_09

Set of 4 colored plastic roller cars (48x28x18 cm) with connectors. 50 kg capacity, ideal for motor coordination in educational environments.

The roller car set represents a versatile solution for playful-motor activities in collective contexts such as **nurseries, playrooms, and recreation centers**. The system consists of four independent vehicles which, thanks to the included connectors, can be configured in series, transforming individual play into a cooperative and group coordination experience. The structure is designed to withstand intense stress, ensuring stability and safety during movement.
