

## Set of 60 assorted foods for nursery school h821\_16

Set of 60 assorted life-size foods for nursery school. Made in Italy, 100% recyclable and ideal for role play from 24 months.

The **set of 60 assorted foods for nursery school h821\_16** is a professional educational equipment designed to support the cognitive and relational growth of children in the early school stages. Composed of **life-size** food reproductions, this kit solves the problem of decontextualization during symbolic play, offering objects that faithfully reflect the proportions of real food. The use of these supports facilitates the development of **fine motor skills** and the recognition of shapes and colors, while allowing the expansion of vocabulary related to nutrition. Made entirely in **Italy**, the set meets rigorous sustainability standards: it is produced with **renewable energy** and partially recycled materials, ensuring a safe and educational play environment starting from **24 months**.
