

Shock-absorbing tile 100x100 th. 3 cm for gyms h834_05

Modular shock-absorbing tile in recycled rubber granules. Dim.: 100 x 100 cm. Thickness: 3 cm. Color: black.

Shock-absorbing tile 100 x 100 cm, in **recycled rubber**, ideal for covering surfaces of gyms and sports centers. In **black color**, with a **smooth surface** and **fine grain**, it has a **thickness of approximately 3 cm**. **Made in Italy**, it is **modular**, soft to the touch thanks to the quality choice of rubber granules obtained from worn-out tires, but at the same time resistant, thanks to its high density.

Technical features:

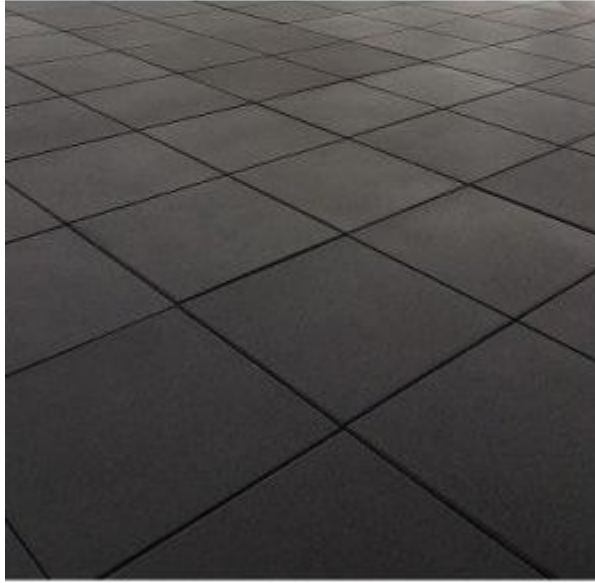

- For gyms
- Modular model
- Dimensions: 100 x 100 cm
- Thickness: 3 cm
- Color: black
- Smooth surface
- Fine grain
- Manufacturing material: recycled rubber
