

Signaling cone with yellow retractable belt h972_131

Professional signaling cone in PVC/ABS, height 1050 mm, with 4 m retractable "DANGER" belt and ballastable base for construction sites and industrial areas.

The **yellow signaling cone h972_131** is a professional safety device designed for the delimitation and protection of **construction sites, high-risk industrial areas and zones closed to the public**. The structure combines the chromatic visibility of the yellow body with a **4-meter retractable belt** featuring the international wording "DANGER", ensuring immediate communication of danger even from a distance. Designed for **continuous outdoor use**, the system solves stability issues in the presence of wind or uneven surfaces thanks to a high-grip base.

Technical features

- **Total height:** 1050 mm
- **Base dimensions:** 550 x 550 mm
- **Materials:** PVC and ABS structure, high-resistance polyester strap
- **Retractable belt:** Length 4 meters, width 50 mm, yellow color with black "DANGER" writing
- **Safety system:** Integrated retractable mechanism with brake and anti-panic system for automatic release in emergency
- **Stability:** Base ballastable with water or sand, total ballasted weight of 7.30 kg
- **Modularity:** Internal roller designed for the attachment of up to 3 straps simultaneously
- **Accessory options:** Top threaded hole for fixing information panels or signaling signs
- **Environmental resistance:** Equipped with waterproof cover for protection from rain, dust and thermal shocks
