

Silent hotel minibar 25 lt h3404

Silent 25-liter absorption minibar. Compact dimensions 35x39x46.5 cm, reversible and panelable door. Ideal for hotel rooms and B&B.

The **h3404 room minibar** represents an efficient and discreet solution for the hospitality sector, designed to meet the comfort needs of guests and the operational requirements of hoteliers. Thanks to the **absorption refrigeration system**, the device guarantees **absolute silence**, eliminating vibrations and mechanical noises that could disturb rest during the night. Its versatile structure allows for both **freestanding** and **built-in** installation within existing furniture, with the possibility of customizing the aesthetics thanks to the **panelable door**.

This 25-liter model solves the critical problem of placement in small spaces, offering excellent cooling capacity with optimized consumption. It is the ideal target for **hotels, boutique hotels, and B&Bs** looking for a reliable product with an excellent investment-to-performance ratio, without sacrificing modern features such as internal LED lighting.
