

Single 40L indoor waste recycling container h953_03

Single 40L waste recycling container with plastic internal bucket and side handles. Dimensions: 24 x 35 x h. 70 cm. Made of 1.2 mm sheet iron.

The **h953_03 indoor waste recycling container** is the perfect solution for modern environments such as offices, schools, shopping centers, and airports. Thanks to its **minimalist and functional design**, it easily adapts to any context. It is made of **1.2 mm sheet iron**, ensuring robustness and durability over time.

This model includes a **plastic internal bucket** that facilitates emptying and cleaning. The **ABS handles recessed on the sides** offer a comfortable grip for transport and emptying. The structure is designed with easily separable materials for **ecological recycling** at the end of its life.

The bin complies with the **UNE-EN 13501-1** fire resistance regulation, guaranteeing safe use even in environments that require high safety standards. It is available in **different colors (see attached color chart)** to allow for correct waste management. A **pictogram** is included: during the ordering phase, it is possible to choose the type of waste icon (see attached image). The pictogram consists exclusively of the waste icon, without text.

Purchase the h953_03 recycling container and optimize waste management in your indoor environments. Choose quality, functionality, and compact design!

Technical features:

- **Total dimensions:** 24 x 35 x h 70 cm
- **Capacity:** 40 L

- **Ecological:** made with separable materials for easy recycling.

FAQ:

1. What are the dimensions of the container?

The total dimensions are 24 x 35 x h 70 cm, with a capacity of 40 liters.

2. What type of material is used for the container?

The container is made of 1.2 mm sheet iron to ensure strength and durability.

3. How is the container emptied?

It is equipped with a plastic internal bucket and side handles recessed into the body, which is then lifted for quick and easy emptying.

4. Is it possible to choose the type of pictogram?

Yes, a customizable pictogram is included. The icon can be specified at the time of order.

5. Is the container safe in case of fire?

Yes, it complies with the **UNE-EN 13501-1** fire resistance regulation.

Mini buying guide:

When choosing an **indoor recycling container**, it is essential to consider capacity, durability, and ease of use. The **h953_03** model offers a robust and practical solution for waste management thanks to its **1.2 mm sheet iron** structure and **plastic internal bucket**.

The **compact and minimalist design** integrates perfectly into offices, schools, hospitals, and other public facilities. The **ABS handles recessed into the sides of the body** facilitate transport and emptying of the container. The possibility to choose from **different colors and custom pictograms** allows for optimal management of waste separation. Furthermore, compliance with the **UNE-EN 13501-1 fire resistance** regulation ensures safety in environments requiring high standards.

Opting for the **h953_03** container means choosing a functional, safe, and ecological solution to improve waste management efficiency.

Indoor recycling container, 40 L bin, sheet iron trash can, plastic internal bucket, recessed ABS handles, minimal design for waste, container with pictogram, fire resistance UNE-EN 13501-1, ecological recycling, recyclable container, bin for offices and schools.
