

Single 55 lt indoor waste recycling container h953_04

55 lt waste recycling container with front-extraction body and internal bag-holder ring. Dimensions: 27 x 35 x h 71 cm. Made of 1.2 mm sheet iron.

The **single waste recycling container h953_04** is a simple and functional solution for waste management in indoor environments such as offices, schools, hospitals, and indoor spaces. Made of **1.2 mm sheet iron**, it guarantees resistance and durability over time.

Equipped with a practical **front-extraction body**, it facilitates the removal and replacement of the bag (not included in the supply). The **internal bag-holder ring** keeps the bag firmly in place and hidden from view. The **ABS plastic handles**, recessed on the sides, make moving and positioning the container easy.

The design is studied for efficient waste management, with materials easily separable for **ecological recycling** at the end of life. Furthermore, the container complies with the fire resistance regulation **UNE-EN 13501-1**, guaranteeing safety in the most demanding environments. It is available in **various colors (see attached color chart)** and comes with a **pictogram**; the desired waste type must be specified during the ordering phase (image attached). The pictogram consists exclusively of the waste icon, without text.

Organize your spaces with the **waste recycling container h953_04**. Choose quality and functionality for efficient and safe waste management! **Order now!**

Technical features:

- **Dimensions:** 27 x 35 x h 71 cm
- **Capacity:** 55 lt
- **Weight:** 12 kg
- **Body material:** 1.2 mm sheet iron
- **Bag-holder ring:** included
- **Front-extraction body**
- **Handles:** in ABS plastic, recessed on the sides
- **Fire resistance:** UNE-EN 13501-1
- **Bags not included in the supply**
