

Single armchair without armrests for office h776_77

Compact professional armchair in wood and fire-retardant faux leather. Dimensions 60x85x74 cm. Armless design for space-saving modular configurations.

The single armchair **h776_77** is a professional seating solution characterized by an essential and rigorous design, conceived to guarantee high resistance and prolonged comfort in contract and executive contexts. The absence of armrests gives the module superior versatility, making it ideal both as an individual seat and as a component of articulated modular systems, optimizing the footprint in corridors, waiting areas, and reception areas.

The structural solidity is guaranteed by a frame in **plywood** integrated with a suspension system of **elastic straps**, designed to distribute weight evenly and maintain ergonomic integrity over time. The high-density polyurethane foam padding completes the performance profile of this technical furniture piece.

Technical features

- **Total dimensions:** W 60 x D 85 x H 74 cm
- **Seat height:** 42 cm
- **Operating weight:** 13 kg
- **Internal frame:** Plywood with elastic strap suspension system
- **Padding:** Expanded polyurethane resin with a performance density of 30 Kg/mc
- **Upholstery:** Fire-retardant faux leather with high resistance to wear
- **Base:** Black polypropylene stabilizing feet
- **Certifications:** Materials compliant with safety regulations for public environments

Optional: Upon request and subject to a specific quote, it is possible to customize the armchair with technical fabric upholstery or extra-catalog colors to adapt to specific interior design projects.
