

Single-cylinder trolley 40/50 L non-marking wheels h55_119

Professional steel cylinder trolley, convertible to 4 wheels for Ø 250 mm cylinders. 100 kg capacity, non-marking wheels and double safety.

The **convertible cylinder trolley** is an advanced technical solution for the safe and assisted handling of pressure vessels. Designed to optimize logistical operations in industrial and artisanal contexts, this model stands out for its **four-wheel** system activated by a rear joint, which allows the weight to be transferred to the ground, reducing the operator's physical effort during transit. The **welded steel** structure is finished with acrylic powder coating to ensure high mechanical and chemical resistance.

Technical features

- **External dimensions:** 450 x 500 x 1250 mm
- **Load capacity:** 40/50 liter cylinders with maximum diameter 250 mm
- **Maximum capacity:** 100 kg
- **Movement system:** Convertible from 2 to 4 wheels via rear joint
- **Main wheels:** 2 non-marking solid rubber Ø 200 mm
- **Support wheels:** 2 mounted on joint Ø 100 mm
- **Load safety:** Double adjustable containment strap
- **Structural support:** Central reinforcement bar and 320 x 220 mm loading plate
- **Ergonomics:** Push handle with non-slip grip
- **Compliance:** Product compliant with CE standards
