

Single desk h908_08

Single-seater desk for primary school in steel and laminate, 70x50x59 cm. Design without under-shelf for maximum hygiene and freedom of movement.

The **single-seater desk** is a technical furniture solution specifically designed for setting up classrooms in primary schools. The structure is defined by an essential frame without an under-shelf, a functional choice that facilitates cleaning and sanitisation operations in school environments, eliminating dust accumulation areas. Stability is guaranteed by a load-bearing structure in **curved steel tube**, designed to withstand the prolonged mechanical stress typical of the educational context.

Technical features

- Type: single-seater desk for school use
- Configuration: without under-shelf compartment
- Structure material: Ø28 mm circular section steel tube
- Worktop dimensions: 70 x 50 cm
- Fixed height: 59 cm (Size 3)
- Design: curved profile legs for greater passive safety
