

Single-patient ward wardrobe for hospitals h18_41

Single-patient ward wardrobe. Dimensions: **W.50xD.50xH.190 cm.**

Single-patient ward wardrobe with a single door. You can choose the ward wardrobe with either a **plastic laminate door** or a **sheet metal door**. The structure is made of 8/10 cold-rolled steel sheet, painted with epoxy-polyester powders cured in a thermal tunnel at 200°C. It is equipped with mirror-polished aluminum tube feet, with removable plastic glides, one of which is adjustable. Internally, the compartment has an upper shelf with a pull-out clothes hanger rod and a lower shelf, to which a drawer can be added upon request.

Technical features:

- Single-patient ward wardrobe
- Material: 8/10 cold-rolled steel sheet structure
- Dimensions: W.50xD.50xH.190 cm
