

Single school desk h908_06

Single-seater school desk in steel and laminate, 70x50x71h cm (size 5). Ø28 mm tubular structure for high resistance and maximum stability.

The **size 5 single-seater desk** represents an essential and robust furnishing solution, specifically designed for primary and secondary school classrooms. The structure is designed to withstand the intensive daily use typical of school environments, ensuring superior stability thanks to the use of selected technical materials. This model deliberately eliminates the under-shelf compartment to encourage greater freedom of movement for the student and drastically facilitate cleaning and sanitizing operations of floors and furniture.
