

Single school desk h908_14

Single-seater height-adjustable desk (59-82 cm) with 70x50 cm top. Single-column structure without under-shelf for maximum school ergonomics.

This **single-seater school desk** is designed to guarantee maximum ergonomic flexibility within modern and dynamic teaching environments. The peculiarity of the **height adjustment** allows the work surface to be adapted to the specific stature of the student, promoting correct posture and preventing musculoskeletal fatigue during lessons. The essential design, characterized by the absence of an under-shelf, is studied to offer **greater freedom of movement** for the legs and facilitate accessibility, making the workstation ideal even in contexts of inclusive education.

Technical specifications

- **Configuration:** Single-seater and single-column
- **Adjustment:** Telescopic height system from 59 cm to 82 cm
- **Worktop:** Dimensions W. 70 x D. 50 cm
