

Single school desk h908_75

Single school desk with Ø40 mm steel C-frame, 70x50 cm top and under-shelf grid. High stability for schools and training centers.

The **h908_75 single-seater desk** is a technical furniture solution designed for schools and training centers requiring durable and stable study stations. The distinctive feature is the **"C" structure**, designed to optimize load distribution and prevent the risk of tipping, ensuring superior safety compared to standard frames. The provision of an under-top metal wire grid solves the problem of educational materials clutter, allowing the work surface to remain free and organized.

Technical features

- **Frame:** "C" structure in sturdy Ø40 mm steel tube
- **Worktop:** resistant surface in ivory color, dimensions 70x50 cm
- **Height:** 82 cm (standard for secondary and high schools)
- **Storage compartment:** under-top grid in electro-welded metal wire
- **Metal finish:** aluminum-colored epoxy powder coating
- **Components:** leg terminals with scratch-resistant and noise-reducing feet
