

Single-seat desk h908_11

Single-seat school desk 70x50 cm with height-adjustable twin-column frame and under-top wire shelf. Ergonomic solution for various school levels.

This **single-seat school desk** is designed to meet the flexibility and ergonomic needs of modern educational environments. The structure stands out for its **twin-column frame**, which guarantees superior stability compared to standard models, while allowing for millimetric height adjustment. The design integrates a practical **wire grid shelf**, optimized for organizing school materials without obstructing the user's legroom.
