

Single-seater desk h908_12

Double-column steel single-seater desk, height-adjustable (59-82 cm), 70x50 cm top without undershelf. Adaptable ergonomics for every school level.

This **double-column single-seater desk** represents a versatile solution for modern school furniture, designed to meet the needs of ergonomics and durability. The structure is conceived to promote a correct posture during lesson hours, dynamically adapting to the user's stature thanks to the **height adjustment** system. The configuration without an undershelf is designed to maximize free legroom and simplify maintenance and cleaning operations in the classroom.
